Hi Phil,

The estimate below accounts for a pre-recording planning meeting, a half-day of recording, editing time for a 30-second feature and a piece of stock music for the soundtrack. (Depending on the students' plans, you may need a couple more tracks. Alternatively, maybe there will be a musician among the students.)

The editing time includes a round of review and revision. I don't anticipate needing further revision time since we're planning (storyboarding) up front.

### Quote

- Storyboarding (\$75)
- 4-hour recording session (\$150 per 2-hour session)
- 30-second feature editing (\$300 per minute produced)
- x1 Stock music track (\$25 per track)

TOTAL \$550

Let me know if you have questions.

Thanks!

Blake
